Who we are...

Dance Repertory began in 1997 as a professional modern dance performance company and has presented works of various U.S. choreographers. In 1999, the *Vision Series Dance Festival* was born and has become one of the Bay Area's most sought after events. It was created as a vehicle for developing artists at the high school and professional or college level to gain feedback on their work, increase community support, network with other artists, and gain exposure on a well respected, professional and established stage in San Francisco.

To date, the festival has provided opportunities to over 525 choreographers and 1,950 performers from 35 California high schools, youth programs and dance studios and 62 professional emerging companies and college dance programs. Over 67 professional educators, master teachers, Dance Magazine and California Dance Education Association have graciously given their time, energy and expertise to the advancement of all participants. This project has also provided exposure for these artists to over 6,500 audience members.
